

A to Z of MHP's - Financial Freedom through Mobile Home Parks - Home Study Course

What This Course is NOT:

First off let me tell you what this course is NOT. It's NOT a get rich quick scheme, and it's NOT a course that leads to any kind of upsell.

What this Course IS:

This course is all-inclusive, and you will walk away with your own self-designed mobile home park investing business plan to suit your specific needs. The course was designed to help investors avoid costly pitfalls and learn how to maximize profits. I'm confident that by effectively applying the information in this course you could make hundreds of thousands of dollars if not millions over time (or save hundreds of thousands of dollars if not millions, in potential losses!)

The course is made up of 12 training modules and is very interactive with Wealth Exercises built in, so you build your customized MHP investing business and action plan as you progress through the course.

The modules are video trainings where you're in a classroom with me (virtually). There are students in class during the videos so we can take advantage of the variety of helpful questions and answers that happen throughout the course.

The modules themselves are under 16 hours total, although you will have 4+ hours in working through exercises and action items, which makes it a 20+ hour course.

You will receive electronically, a full training manual which works along with the course. You will also receive example contracts and documents.

In addition, once you have successfully completed the course, I will give you a free MHP deal evaluation to help you towards getting your first or next MHP deal.

Here's what People are Saying about the Course:

Clearly, there is significant value to this course and there is a cost associated with that. These type courses typically retail for \$1,000 - \$2,000. But because I don't want money to be the reason that stops people from taking massive action towards their financial future, I've priced this course at a mere \$597.

You can see images of what you will receive. You will receive these files and the course electronically as it's an online course. Once you send your \$597 payment, I can get you registered in our back office. I'll then send you account and log in information so you can get started. In addition, you'll have access to course supporting files via google drive.

To Recap, Here's What YOU Get for \$597:

- 16 hour Video Training broken up into 12 Modules
- 4+ hours of Wealth Exercises so you can create your MHP investing business and action plan
- Home study Training Manual, plus example Contracts and Documents
- Free Deal Review (upon completion of the Course)
